

Hillary A. Hahm, MD, PhD

Hillary A. Hahm, MD, PhD joined the cancer care team of Northwest Georgia Oncology Centers, P.C. (NGOC) following her medical training, residency and fellowship at Johns Hopkins University Hospital in Baltimore, MD. Dr. Hahm treats a broad spectrum of cancer and blood disorders, but has a special interest in treating patients with breast cancer.

Dr. Hahm also is actively involved in cancer research and clinical trials to find a cancer cure and provide her patients with the most advanced cancer treatment available in Georgia.

“I’m committed to providing community-based state-of-the-art cancer care to my patients and educating them about their disease and treatment options. My involvement in breast cancer clinical trials allows me to offer patients new and promising treatments that are not only personally beneficial, but help improve outcomes for women facing breast cancer in the future.”

Dr. Hahm provides patient-centered cancer care at NGOC’s **Marietta Cancer Center**.
